Sohanur Rahman Pavel

Junior Django Developer

Hope you are well. I have been practicing Python since early 2021. After several months I realized that I needed to learn some frameworks which made me choose Django.

So, I have been practicing Django for 1.2 years from several Udemy courses and other helpful online sources. I have created a website with e-commerce functionality as a portfolio view.

Now, I am looking for an opportunity and guidance to enhance my skills.

Experience

2021-2022
Creative IT Institute l Dhanmondi, Dhaka
Python Django intern

- Write effective, scalable code
- Develop back-end components to improve responsiveness and overall performance
- Integrate user-facing elements into applications
- Test and debug programs
- Improve functionality of existing systems
- Implement security and data protection solutions
- Assists in resolving moderately complex production support problems

2022- 2022
Mainul Extension l House 17, Road 10, Uttara 4
Digital Marketer

I served as Right Wing Commander in Mainul Extension. My job responsibility was to prepare and get approval for the Facebook store. Finding new strategies to grow the e-commerce business and another technical problem was upon me.
